

How to install the script

The easiest way to install and license the tool is by using aescrpts manager app:

<https://aescrpts.com/learn/aescrpts-aeplugins-manager-app/>

How to install the script without using the manager app

Please put the downloaded script file (jsx or jsxbin) below.

WIN

C:\Program Files\Adobe\Adobe After Effects(version)\Support Files\Scripts

MAC

Applications/After Effects(version)/Scripts

When you launch AE, the script will be displayed in the menu / file / script, so you can select it.

After launching the script, enter the license and it will be available.

If you want your script to be a tab panel (a UI that can be docked with a regular panel), put the script file below.

WIN

C:\Program Files\Adobe\Adobe After Effects(version)\Support Files\Scripts

\ScriptUI Panels

MAC

Applications/After Effects(version)/Scripts/Script UI Panels

When you launch AE, the script will be displayed in the menu / window, so if you select it, it will be displayed as a tab panel.

After launching the script, enter the license and it will be available.
