

**PROTECTING SHAPE LAYERS
ONE BORDER AT A TIME
FOR AFTER EFFECTS**

- 1 Quit After Effects

- 2 Copy the "BorderPatrol.jsxbin" file into the ScriptUI Panels folder:

Mac:
`/Applications/Adobe After Effects <version>/Scripts/ScriptUI Panels`

Windows:
`C:\Program Files\Adobe\Adobe After Effects <version>\Support Files\Scripts\ScriptUI Panels`

- 3 Open up After Effects again

- 4 Make sure the "**Allow Scripts to Write Files and Access Network**" checkbox is enabled in "**Preferences > Scripting & Expressions**"
(for older versions of After Effects check "Preferences > General")

- 5 Navigate to the Window menu you'll see "BorderPatrol.jsxbin" near the bottom.
