Autosaver

User Guide

1. To install the aw_Autosaver script simply put the script file *aw_Autosaver.jsxbin* into the folder.

On Windows:

*Program Files/Adobe/(After_Effects_version)/Support Files/Script/Script UI Panels/*

On Mac Os:

Applications/(After_Effects_version)/Scripts/Script UI Panels/

2. Also, under After Effects preferences you need
to enabe the checkbox **«Allow Script to Write Files and Access Network»** .
You can find it under «General» tab of After Effects «Preferences».

«Edit -> Preferences -> General»

You can also find the tutorial on how to install scripts here:

https://vimeo.com/1702504
